

Production & Shipment of Supplies Related to Critical Infrastructure

1. Presidential Policy Directive 21 (PPD-21) designates the food and agriculture sector as a critical infrastructure sector whose assets, systems, and networks are considered so vital that their incapacitation or destruction would have a debilitating effect on security, national economic security, national public health, or safety.
2. The President’s Coronavirus Guidance published on March 16, 2020 instructs employees of Critical Infrastructure Industries, such as the food and agriculture sector, to maintain normal work patterns during the global coronavirus outbreak. This employee, therefore, is carrying out a duty within a sector that has been designated as critical infrastructure, the continued operation of which is vital for security, national economic security, national public health, and safety.
3. This document certifies that:
 - a. This employee is carrying out a duty within a sector that has been designated as critical infrastructure, and
 - b. This vehicle is transporting a shipment of food and agricultural products within a sector that has been designated as critical infrastructure, the continued operation of which is vital for security, national economic security, national public health, and safety.
4. Accordingly, it is appropriate in light of the President’s Coronavirus Guidance to allow this shipment to proceed in the federal interests of protecting the nation’s food supply chain.
